With a total running time of just over **43 minutes**, this **CD** will surely give you the finest in **ONEGODLESS**'s self-proclaimed genre **HEAVYSTONERBLUESGROOVEROCKSLUDGEMETAL**. **ONEGODLESS** is known for their joking image, not taking things too seriously, their music is most definitely serious.

**Zielhorst** says: "A lot of the things we say are meant in a humorous way, more or less. It's a reaction to the (music) world as it is right now. Of course we did not invent a new genre called **HEAVYSTONERBLUESGROOVEROCKSLUDGEMETAL**, but it was either that or call it anti-Djent (laughs). The music and the lyrics are very serious, though, there's not a joke in that".

About the album title **MOURNER** and its artwork **Zielhorst** says: "It fits. It's a link to the previous band name, a way to include our roots, so to say. It also underlines the artwork: the Yogi man (inside artwork) mourns about the world, closed off in his own being."

**Bio:**

**ONEGODLESS** is founded by Dutch bass player **Robin Zielhorst**. **Zielhorst** is known for his (fretless) bass playing in bands like **Cynic**, **Exivious**, **Our Oceans**, various studio projects and solo performances, and joins forces with **Pieter Verpaalen (Textures)**, **Yordi Lopez (Red Eyes, 3D Monster)** and **Yuma van Eekelen (Pestilence, Exivious)**.
